

At ABA Technologies, we design entirely customized, evidence-based training solutions for learners in every industry. We've been solely focusing on eLearning for nearly 25 years and have served over 240,000 individual participants in 60+ countries.

EVIDENCE-BASED LEARNING SOLUTIONS

The initial stage of the engagement consists of an assessment of your culture, environment, business opportunities, and past training effort success.

ASSESS YOUR **BUSINESS**

The customization of the training program will be driven by the detailed findings from our discovery phases which inform us on the best learning solution that fits your unique needs.

CUSTOMIZE YOUR **SOLUTION**

DEFINE THE IDEAL We partner with you and rally around a common goal – your performance objectives. That includes measurable improvement at the behavioral as well as business metric level.

EMBED INTO **CULTURE**

We will collaborate with you and guide the implementation with precision, clarity, and timeliness.

We have a vested interest in your success and will continue to work with you beyond implementation to ensure this occurs.

Combining technology, behavioral science, and innovative instructional design, ABA Technologies solves the problems of learning in the workplace.

Learning solutions should produce sustainable behavior change that shows measurable impact on your business objectives. Our solutions are designed to create a direct line of sight from behaviors learned to KPI's achieved.

We enable significant value generation on your workforce investment through our innovative learning architecture and performance sustainability technology.
